Young Men Use Cuticura To Save Your Hair

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enlances its appearance a hundredfold.

Don't bother to prepare the mixture, you can get this famous old recipe introved by the addition of other ingredients at a small cost, all ready for use. nts at a small cost, all ready for use, t is called Wyeth's Sage and Sulphur ompound This can asways be depend-d upon to bring back the natural color Sulphur Compound now because it darkens so naturally and evenly that no-body can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance, it is not intended for the cure, mitigation or prevention of disease.
